

KReady Domain and Email Whitelist

This will whitelist the KReady domain and all sub-domains.

- *.kready.org
or
- kready.org

If a global whitelist is not possible, then these are the specific ones needed to be open:

- state.kready.org
- api.kready.org
- pd.kready.org

Please note, due to server load balancing, 1 URL could point to multiple IP addresses.

All system emails are sent from noreply@kready.org. Please make sure this email address is not blocked in your district(s).
